

Merck Animal Health and the Canadian Veterinary Medical Association “Time to Talk about Vet Med Mental Health” Awareness Campaign are hosting a Q and A webinar with Mary Ann Baynton in honour of Canadian Mental Health Week.

**Join us for a 1-hour webinar on Friday May 6, 2022 at 12 pm EST.**

Ask Mary Ann your questions on how to reduce unnecessary veterinary workplace stress, distress and conflict during this special Q and A webinar in honour of Canadian Mental Health Week. Mary Ann understands the emotional cost of work, has experienced burnout, managed and supported dozens of employees with mental illnesses, has made mistakes and now creates resources to help others. As a public speaker Mary Ann motivates audiences to support their own mental health as well as improve psychological health and safety in the workplace.

Mary Ann has been called the “godmother of psychological health and safety”. She served as co-chair of the Technical Committee for the National Standard of Canada on Psychological Health and Safety in the Workplace, is a member of the Mental Health Commission of Canada’s Workforce Advisory Committee, and a member of the Employment Standards Committee for the AODA.
