

Table S1. Distribution and frequency of feline eosinophilic sclerosing fibroplasia (FESF) cases with focal or multifocal presentation reported in the scientific literature.

	Site and total number of cases	Numbers of cases with concurrent lymph node involvement	Number of cases and references
Gastrointestinal sites	Stomach (n° = 4)		2 (Craig et al., 2009) 1 (Linton et al., 2015) 1 (Klang et al., 2024)
	Pylorus (n° = 12)	3 (Craig et al., 2009)	6 (Craig et al., 2009) 1 (Grau-Roma et al., 2014) 2 (Linton et al., 2015) 1 (Cho et al., 2017) 1 (Kim et al., 2021) 1 (Noh et al., 2024)
	Duodenum (n° = 12)	1 (Almendros et al., 2024)	4 (Craig et al., 2009) 1 (Weissman et al., 2013) 1 (Grau-Roma et al., 2014) 1 (Agulla et al., 2021) 1 (Davidson et al., 2021) 1 (Montenegro et al., 2022) 1 (Martineau et al., 2023) 1 (Almendros et al., 2024) 1 (Klang et al., 2024)
	Jejunum (n° = 6)	2 (Craig et al., 2009) 1 (Klang et al., 2024)	2 (Craig et al., 2009) 1 (Brloznik et al., 2017) 2 (Klang et al., 2024) 1 (Noh et al., 2024)
	Ileum (n° = 2)	1 (Klang et al., 2024)	1 (Craig et al., 2009) 1 (Klang et al., 2024)
	Small intestine (n° = 3)	1 (Craig et al., 2009) 2 (Klang et al., 2024)	1 (Craig et al., 2009) 2 (Klang et al., 2024)
	Ileoceocolic junction (n° = 14)		6 (Craig et al., 2009) 8 (Linton et al., 2015)
	Colon (n° = 5)	1 (Craig et al., 2009)	3 (Craig et al., 2009) 1 (Weissman et al., 2013) 1 (Sihvo et al., 2011)
	Rectum (n° = 1)		1 (Goffart et al., 2022)
	Not determined (n° = 2)		2 (Linton et al., 2015)
Extra gastrointestinal sites	Retroperitoneum (n° = 1)		1 (Thieme et al., 2019)
	Mesentery (n° = 1)		1 (Kambe et al., 2020)
	Mesenteric lymph node (n° = 7)		7 (Klang et al., 2024)
	Mediastinum		1 (Duclos et al., 2023)

	(n° = 1)		
	Retropharyngeal lymph node (n° = 1)		1 (Zampieri et al., 2022)
Multifocal	Multiple sites (n° = 19)	1 (Munday et al., 2014) 4 (Černá et al., 2024)	1 (Suzuki et al., 2013) 2 (Weissman et al., 2013) 1 (Munday et al., 2014) 1 (Takao et al., 2015) 3 (Klang et al., 2024) 9 (Černá et al., 2024)*

* Exact location of the lesions cannot be extrapolated from the article.
