CVMA President Message

Hello, my fellow veterinary professionals! What a treat it is to attend our 74th convention with you - IN PERSON! I trust each of you is as excited as I am 😊. Even though our last in-person convention took place just three years ago in Toronto, I am sure many of you also feel it seems like a lot longer than that.

To say the last three years since then have been a challenge would be a gross understatement. The stress our veterinary industry has faced throughout the pandemic, and beyond, has been extraordinary. I commend each and every one of you for your hard work and perseverance in the face of such unusual difficulty. I also encourage you to seek out the many supports the CVMA offers under the Veterinary Health and Wellness Resources section of our new website. Work in our profession can be very tough and taking care of our personal health and wellness is essential.

I believe part of our wellness journey involves getting together in person to network, learn from our RACE-approved continuing education, and simply soak up each other's company. I am ecstatic that we are doing this together in beautiful Halifax. I am sure the famous east coast hospitality we experience will go a long way in lifting our spirits.

This year's convention will kick off on Thursday, July 21 with our first CVMA Signature Event of the weekend - the CVMA Summit. This year's Summit, Time for a Veterinary Workforce Paradigm Shift, explores veterinary workforce issues in a new light focusing on veterinary retention and recruitment, workforce mobilization/utilization, and

novel alternative veterinarian extender concepts in the veterinary workforce. Thursday also includes our National Issues Forum featuring Veterinary Medicine and Natural Disasters. Experts will discuss the role of veterinary teams in dealing with the impact of natural disasters, such as fires and floods, on animal health and welfare. Of course, I would be remiss to not mention our time-honoured lunchtime event, our Annual General Meeting, where, amongst many other important items, you will see me pass the torch onto our 2022/2023 CVMA President, the esteemed Dr. Chris Bell. Finally, I invite you to wrap up your jam-packed day of CVMA events with our Awards Gala, where we will revere your colleagues who have contributed greatly to the advancement of veterinary medicine in Canada.

Of course, we must also pay tribute to our dynamic continuing education (CE) program, organized by the CVMA Professional Development Committee, which showcases experts who are primed to share their knowledge and experience with you. The next three days offer over 100 hours of RACE-accredited continuing education covering a myriad of topics including veterinary dentistry, dermatology, osteology, anesthesia, leadership, communication, and so much more.

While this latest year proved to be another tumultuous 365 days, I want you to know it has been an honour and my pleasure to serve the veterinary community as President of the Canadian Veterinary Medical Association. I can't say with any certainty that this coming year will be easier than the last, nor can I predict what new challenges and opportunities will arise. I do, however, thank each of you for your resilience, expertise, and dedication, and encourage you to reward yourselves by making the most of our time together – enjoy every moment of the convention!

Please take a moment to say hi, to myself and any member of the CVMA Staff or committees; we would love to catch up.

Dr. Louis Kwantes
President, Canadian Veterinary Medical Association

Please stay connected and share your experiences on social media using #cvmaconv.

RVTTC President Message

The Registered Veterinary Technologists and Technicians of Canada is excited to extend greetings to everyone attending the hybrid version of the 2022 CVMA Convention in Halifax, Nova Scotia.

This is our 15th year of collaborating with the Canadian Veterinary Medical Association to bring you over 100 high-quality sessions with the entire veterinary team in mind, including topics relevant to the RVT profession such as health and safety, business management, public health, veterinary forensics, and professional wellness.

The CVMA Summit tackles a very relevant issue on veterinary retention and recruitment. Becky Taylor RVT will be speaking about “Mobilizing RVTs – Let’s Stop Talking ‘Utilization of Techs’ and Forge a New Narrative.” Of course, we can’t forget about the highly interactive Emerging Leaders Program (ELP), open to all CVMA and RVTTC members, and designed to help you prepare for a variety of challenges thrown at you in veterinary practice.

If you’re attending in-person, drop by our booth in the exhibit hall, and learn about the RVT Career Navigator, a bilingual, national RVT career planning and advancement website. Whether you’re an RVT, practice owner or manager, you can find value in exploring the limitless possibilities found in the RVT profession!

Heather Shannon RVT
RVTTC President

GENERAL INFORMATION

Evaluations

Your feedback is important to us! Attendees can complete a session evaluation located under each individual session in the agenda section using the convention app. An overall convention survey will be emailed to every attendee on Monday, July 26. Please complete the convention survey at your earliest convenience so we can make future conventions even better.

Convention Proceedings

The scientific proceedings will be available through your attendee portal and linked to each session within the program.

RACE Accreditation

The 2022 CVMA Virtual Convention is approved by the Registry of Approved Continuing Education (RACE) to provide CE activity for veterinarians. This program 20-911913 is approved by the AAVSB RACE to offer a total of 28 CE credits available to any veterinarian or veterinary technician. This RACE approval is for the categories of Seminar/Lecture & Lab/Wet Lab. This approval is valid in jurisdictions recognizing AAVSB RACE; however, participants are responsible for ascertaining each board's CE requirements. RACE does not "accredit," "endorse," or "certify" any program or person, nor does RACE approval validate program content.

Registration

The registration desk is located on the ballroom level of the Halifax Convention Centre. Please visit the registration desk where CVMA staff will be available to assist you with any questions you may have.

Hours

THURSDAY, JULY 21	7:00am – 5:00pm
FRIDAY, JULY 22	7:00am – 5:00pm
SATURDAY, JULY 23	7:00am – 5:00pm
SUNDAY, JULY 24	7:00am – 3:00pm

Exhibit Hall

The CVMA Convention will feature over 75 exhibit spaces and tabletops in the Ballroom at the Halifax Convention Centre.

Hours

THURSDAY, JULY 21	5:00 – 7:00pm
FRIDAY, JULY 22	10:00am – 6:30pm
SATURDAY, JULY 23	10:00am – 4:30pm

CVMA Veterinary Job Fair

SATURDAY, JULY 23	1:30 – 4:30pm
-------------------	---------------

GENERAL INFORMATION

CVMA Quest

The CVMA Quest is an interactive game found on the convention mobile app. It offers attendees an opportunity to network and engage with exhibitors and CVMA Council and visit key areas throughout the convention. Don't miss out on daily prize draws valued from \$150 to \$800.

Visit our App Ambassadors onsite to help you download the app and get networking.

Thank you to all exhibitors for their contributions towards the prizes!

CE Certificates

Your detailed CE certificate can be accessed through your Pheedloop attendee portal and downloaded in real-time.

Should you have any questions, please contact Carolyn at cpotter@cvma-acmv.org.

Session Seating

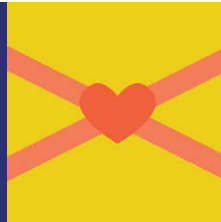

We do try our best to place popular sessions in larger rooms; we don't always get it right. Be sure you get to your session early. Once the chairs are full, the session will be closed, and additional people will not be permitted.

Wi-Fi

Complimentary Wi-Fi is available at the Halifax Convention Centre. Simply connect using CVMA2022.

Download the app and stay connected on the latest news

Stay connected by downloading the CVMA Convention app. This interactive app will allow you to view the program and speaker information; create your own schedule; receive important announcements; participate in live polling and event surveys; and play in the CVMA Quest.

2022 CVMA AWARDS PROGRAM

A selection of exceptional Canadian veterinarians will be recognized for their contributions to the profession at the 2022 Awards Gala on **Thursday, July 21 at 7:00 pm.**

The CVMA is pleased to host the presentation of the 2022 Registered Veterinary Technologists and Technicians of Canada (RVTTTC) Award.

Canadian Veterinary
Medical Association
Association canadienne
des médecins vétérinaires

Canadian Veterinary Medical Association

Established by an Act of Parliament in 1948, the Canadian Veterinary Medical Association (CVMA) is the national and international voice for Canada's more than 15,000 veterinarians, providing leadership and advocacy for veterinary medicine. Its membership comprises Canada's authoritative expertise on veterinary science, animal health and welfare, and veterinary public health. Visit canadianveterinarians.net to learn more about the CVMA and the value of membership.

2022 CVMA AWARDS PROGRAM

CVMA Small Animal Practitioner Award

Sponsored by Petsecure Pet Health Insurance, this award is presented to a CVMA member whose work in small animal practice, clinical research or basic sciences, is judged to have contributed significantly to the advancement of small animal medicine, surgery, or the management of a small animal practice. The award consists of \$1,000 and a plaque.

SPONSORED BY

Dr. David Silversides 2022 CVMA Small Animal Practitioner Award Recipient

Dr. David Silversides, a 1978 graduate of the University of Saskatchewan, studied biochemistry and earned a PhD in reproductive physiology. Following these accomplishments, he spent four years of post-doctoral studies in the United States, including two years in San Francisco and two years in Houston, Texas. He then returned to St-Hyacinthe, QC where he accepted a position at the Faculty of Veterinary Medicine, University of Montreal and has worked as a researcher in genetics and genomics for the last 32 years. Silversides' research focused on the identification of DNA mutations causing over 200 genetic diseases in our domestic dog breeds and over 30 genetic diseases in cats. The Laboratory of Genetic Vets is Silversides' contribution to the responsibility to eliminate disease - relying on education, vision collaboration, and access to a reliable knowledge base to make a difference.

Merck Veterinary Award

Established in 1985, and sponsored by Merck Animal Health, this award is presented to a CVMA member whose work in large animal practice, clinical research, or basic sciences, is judged to have contributed significantly to the advancement of large animal medicine and surgery, including herd health management. The award consists of \$1,000 and a plaque.

SPONSORED BY

Dr. Brian Taylor 2022 Merck Veterinary Award Recipient

Dr. Brian Taylor was born and raised on a small cow-calf farm in Caldon, ON. His interest in animals and veterinary medicine was ignited early in his life with visits from the farm veterinarian, Dr. Gerald Stirk. Dr. Taylor spent his holidays volunteering at Dr. Stirk's clinic, cleaning and restocking shelves. After graduating from the Ontario Veterinary College in 1983, Dr. Taylor began working, mainly in dairy and equine practice, for the same veterinarian who inspired him to pursue veterinary medicine, Dr. Stirk. In 1985, he became a partner and managed their Schomberg clinic. Dr. Taylor served as one of the official bovine veterinarians at the Royal Ontario Winter Fair from 1983 to 1995. In 1987, he was asked to be the attending veterinarian for 800 Canadian Holsteins being transported by ship from Richmond, Virginia to Maracaibo, Venezuela. Following several vacations to the Foothills, Dr. Taylor and his wife, Julie, moved to Alberta in 1996 after falling in love with the area. Dr. Taylor began working in mixed animal practice at the Nanton Veterinary Clinic and became a certified Veterinary Acupuncturist in 1999 after completing the International Veterinary Acupuncture Society course. Dr. Taylor began working at the Highview Animal Clinic, owned by Dr. Dave Dempsey, in 2007. Later he became a shareholder and is currently employed at the clinic part-time. He has spent over 40 years working with cattle, on an individual and herd basis, to improve the cattle industry.

2022 CVMA AWARDS PROGRAM

CVMA Humane Award

Established by the CVMA in 1986, and sponsored by Merck Animal Health, this award recognizes leadership in the care and well-being of animals. The award, which consists of \$1,000 and a plaque, is presented to a CVMA member whose work is judged to have contributed significantly to the welfare and well-being of animals.

Dr. James Stickney **2022 CVMA Humane Award Recipient**

Dr. Stickney grew up on a crop production farm, which had no shortage of farm animals, outside of Hythe, AB. Watching, handling, and working with these animals inspired his desire to pursue veterinary medicine. Growing up in northern Alberta, Dr. Stickney enjoyed many outdoor activities such as hunting, fishing, camping, quadding, and snowmobiling. In 2006, Dr. Stickney took over his Uncle Dewey Stickney's practice upon graduation from the Western College of Veterinary Medicine. Dr. Stickney knew early on that his intended practice destination would be relatively remote and full of challenges. Nonetheless, for the past 14 years, Dr. Stickney and his wife, Jocelyn, have provided veterinary services to several communities throughout northern Alberta and the Northwest Territories. Clients would often travel six to eight hours to seek out Dr. Stickney's expertise. Currently, Dr. Stickney operates a 72-foot-long tractor-trailer unit that functions as an ABVMA licensed, year-round, mobile veterinary facility. It is not uncommon for him to set up in the next town after driving through the night in a snowstorm while dodging bison - which his staff can attest to.

CVMA Practice of the Year Award

Established in 2013, the Practice of the Year Award consists of \$1,000 and a plaque and is sponsored by Scotiabank, a leader in banking services for professionals. The award recognizes a veterinary practice team for outstanding achievement within their local community. Such achievements may include innovations in provision of veterinary services, commitment to work-life balance, meaningful community or charitable involvement, or implementation of 'green' practice procedures.

Fundy Veterinarians **2022 CVMA Practice of the Year Award Recipient**

Founded by Drs. Ed and Al MacAulay in 1971, Fundy Veterinarians was built on the core values of upholding service to the veterinary profession and the community of Shubenacadie, NS. Fundy Vets has a long history of supporting local causes including youth athletics and education, school breakfast programs, 4-H, food banks, and refugee causes, to name only a very few. Fundy Veterinarians has strived to never lose sight of its roots and remain focused on long-term service to clients and communities. The clinic team members are proud of their history of being a force for the well-being of clients, animals, and communities, and look forward to growing with their communities for the next 50 years.

CVMA Life Membership

Life Membership is presented to a CVMA member for long and outstanding service on CVMA Council, Executive, Boards and Committees, or for outstanding contributions to the veterinary profession. The Life Member is presented with a framed certificate and shall be invited to attend meetings of the association, and shall not be liable to pay dues, but shall enjoy all the rights and privileges of membership.

Dr. Éva Nagy **2022 CVMA Life Membership Recipient**

Dr. Éva Nagy, who hails from Hungary, has a Doctor of Veterinary Medicine summa cum laude from the University of Veterinary Medicine and a PhD and Doctor of Sciences from the Hungarian Academy of Sciences. She was a faculty member at the Ontario Veterinary College where she rose through the ranks to University Professor Emerita. Dr. Nagy was an Adjunct Professor at the Atlantic Veterinary College and Visiting Scientist at the University of Utrecht. During her tenure, she trained 34 of her own MSc and PhD students and 16 post-doctoral fellows and served on advisory committees for many more candidates. Highly collaborative, she has over 175 peer-reviewed publications, largely on avian adenoviruses and at least 15 other animal viruses. She has published nine book chapters and has five patents, mostly on her avian adenovirus vaccine platform. An international speaker, Dr. Nagy has received several distinctions during her career, including as an External Member of the Hungarian Academy of Sciences and later as Honorary Professor at the Hungarian University of Veterinary Medicine, Budapest. She won a Pfizer Award for Research Excellence and received a Lifetime Achievement Award from the YMCA, Guelph Chapter. She has been the Editor of the Canadian Journal of Veterinary Research since 1999 and is a member of the CVMA Editorial Committee.

CVMA Industry Award

Instituted in 1996, the CVMA Industry Award publicly acknowledges and celebrates the role of industry in veterinary medicine. The award formally recognizes a CVMA member for their contributions to the advancement of veterinary medicine.

Dr. Kathy Keil **2022 Industry Award Recipient**

Dr. Kathy Keil, a 1997 graduate of the Ontario Veterinary College, also has a Master's degree in psychology. Five years after graduation and early in her industry career, Dr. Keil received the University of Guelph Alumni medal for community leadership. She earned a President's and Toronto United Way award for success in chairing Bayer's 2001 record-breaking campaign. Her over 20-year career in the veterinary pharmaceutical industry includes providing customer support, monitoring field trials, and delivering professional skills and scientific training. With Merck Animal Health, Dr. Keil spearheaded the Merck-CVMA It's Time to Talk about Mental Health in Veterinary Medicine Awareness Campaign. Her psychology background and recognition of psychological distress in veterinary medicine have led her to pursue mental health training from the Mental Health Commission of Canada and the Canadian Mental Health Association, including certification to teach suicide prevention courses. Dr. Keil is dedicated to veterinary volunteerism. She has served as president of the Ontario Association of Industrial Veterinarians, volunteered on the Ontario Veterinary Medical Association board, served on the Alberta Veterinary Medical Association (ABVMA) council, and is currently a member of the ABVMA Member Wellness Committee and chair of the CVMA Wellness Advisory Group. Dr. Keil finds peace and happiness living in Calgary with her husband Tom, two cats, Smidgen and Sven, their border collie, Taff, and Flora her dressage horse.

R.V.L. Walker Award

The R.V.L. Walker Award, instituted in 1986, consists of a plaque and a cash award. There are two recipients of this award: the plaque is presented annually to the President of the Students of the CVMA (SCVMA) in recognition of his/her contributions in promoting student interests in the CVMA; the cash award is made available to a veterinary student in financial need at the veterinary college where the President of the SCVMA is registered.

Mr. Jeff Li **2022 R.V.L. Walker Award Recipient**

Mr. Jeff Li, a veterinary student at the Ontario Veterinary College and a native of Toronto, has had a long-standing curiosity for the natural world since childhood. A desire to become more immersed in the majesty of Southern Ontario led him to the University of Guelph in 2017 where he majored in Bio-Medical Sciences. The university's forward-thinking and inclusive approach to incorporating wildlife and green spaces on the campus further catalyzed his interest and love for animals. As he progressed through his undergraduate studies, Mr. Li became involved in poultry and rodent research, as well as environmental conservation through non-profit

organizations. One such organization was Wild Ontario, where he became exceptionally versed in raptor training and health. He was introduced to the clinical aspect of veterinary medicine during his time working at the Toronto Animal Health Partners, which cultivated his interest in companion animal emergency medicine. Since entering veterinary medicine in 2020, he has strived to immerse himself in learning more about different aspects of veterinary medicine and currently sits on his school's student council and Emergency and Critical Care club. A large part of his free time is dedicated to intramural ultimate frisbee, volleyball, and spikeball leagues.

CVMA President's Award

The CVMA President's Award is periodically bestowed to recognize an individual member for his/her exceptional contributions and devotion to the association. Recipients are selected by the President and the CVMA Executive Committee.

Dr. Jim Fairles **2022 CVMA President's Award Recipient**

Dr. Jim Fairles has experience in private mixed practice in Mount Forest, ON and international experience in China. Since 2004, Dr. Fairles has been a Client Services Veterinarian at the Animal Health Laboratory, University of Guelph. He also holds a Doctor of Veterinary Medicine (1980) and Master's (1999) degree from the University of Guelph. Dr. Fairles has been involved with veterinary associations on local, provincial, and national levels. He is a past-president of the CVMA and of the Canadian Association of Swine Veterinarians. He is a past chair of the Canadian Animal Health Coalition and a member of all national species groups. Currently,

Dr. Fairles is an industry representative on the Animal Health Canada board of directors where he is chair of the financial committee. Dr. Fairles resides in Elora, ON with his wife Mary Lou. In his spare time, he enjoys various sports activities including hockey, triathlons, astronomy, airplanes and, most importantly, his grandchildren.

2022 Canadian RVT of the Year Award

Registered Veterinary Technologists and Technicians of Canada

SPONSORED BY

The Canadian RVT of the Year Award is sponsored by Hills Pet Nutrition Canada and is awarded to a RVT who exemplifies the definition of an outstanding individual in the Veterinary Technology profession. The awardee must: be a member in good standing with RVTTTC; have participated as a past or present board member of their association or be a past or present award winner of a provincial RVT award as recognized by their own member organization; be involved, active, or current in the veterinary technology profession; and have outstanding performance in their workplace. Award winners receive travel and accommodation arrangements (up to \$2,500) and one CVMA Convention registration.

Ms. Alyson Howard, RVT 2022 Canadian RVT of the Year Award Recipient

Ms. Alyson Howard has been a Registered Veterinary Technician for over 17 years and is described by those who work with her as a very kind, calm, and patient person. Ms. Howard excels as a leader, with an enduring commitment to her colleagues, patients, and their families, and the field of veterinary medicine. Being an RVT was Ms. Howard’s lifelong dream. Her passion has motivated her to travel throughout Atlantic Canada, leaving her home in New Brunswick, to respond to critical needs at various hospitals in Newfoundland and Nova Scotia. On one such occasion, Ms. Howard accepted a particularly challenging position at a veterinary hospital in Newfoundland. Buckling under the weight of a massive labour shortage, the hospital was in full crisis mode, with few staff and no management. Ms. Howard established new policies and processes and developed a skills training program for her team members to foster growth and development. This has attracted new talent, whom Ms. Howard quickly recruited and trained in the field. The hospital is now thriving under Ms. Howard’s leadership.

Alpha Vet Science

BOOTH: 312

Alpha Vet Science (AVS) is a subsidiary of Omega Alpha® Pharmaceuticals Inc. Since 1992 Omega Alpha® Pharmaceuticals has been committed to the production of products that are efficacious, safe and of superior quality. AVS only uses human-grade ingredients sourced from trusted suppliers from around the world. All ingredients are subjected to comprehensive laboratory tests to ensure their purity, potency, and stability. The entire line of AVS products was developed using evidence-based scientific literature. We manufacture all of our products in our Health Canada licensed facility, located in Toronto, ON. The AVS line of professional natural health products is sold exclusively by veterinarians for their client's pets. Alpha Vet Science™ stands by its products and offers a 100% satisfaction guarantee. Please visit alphavetscience.com for more information.

AMD Medicom

BOOTH: 703

Medicom helps keep four-legged creatures and the humans who care for them safe. We offer a wide selection of veterinary supplies, including training pads, wipes and bandages, as well as a complete portfolio of personal protective equipment and disinfectants to keep veterinary healthcare professionals safe.

Animal HealthLink Ltd.

BOOTH: 405

Animal HealthLink (AHL) is a Canadian veterinary practice support company that provides remote triage (aka. teletriage services to veterinary practices. Our experienced team of RVTs act as extension of veterinary teams and provide professional, competent, and compassionate service to veterinary clients. AHL helps on-call practices by reducing after-hours phone calls to the veterinarian by 75% on average, and providing appropriate advice and reassurance to clients during less urgent situations. For emergency hospitals, AHL helps rework the triage workflow and allow veterinary staff to focus on the patients in front of them. AHL promotes long-term sustainable industry practices by improving access to veterinary care while reducing veterinary staff burnout.

Antech & Sound Imaging

BOOTH: 412

Antech sets the standard for reference laboratory and imaging excellence. We are proud to have a world-class team of veterinary professionals putting you first with excellent customer service. At the heart of our company is our love for pets, their health, and their well-being.

BD Canada

BOOTH: 103

BD is a global medical technology company that is advancing the world of health™ by improving medical discovery, diagnostics and the delivery of care. BD leads in patient and healthcare worker safety and the technologies that enable medical research and clinical laboratories. The company provides innovative solutions that help advance medical research and genomics, enhance the diagnosis of infectious disease and cancer, improve medication management, promote infection prevention, and equip surgical and interventional procedures.

Bluesao Canada Distribution

BOOTH: 415

Bluesao is a high-tech company specialized in the research and development of orthopedic instruments for small animals

Boehringer Ingelheim AH Canada

LEVEL II SPONSOR

BOOTH: 305

Boehringer Ingelheim Animal Health Canada Inc. is now the second largest company in the global animal health market, and is the top provider worldwide of parasiticides and vaccines. The company is now the global leader in the pet, swine, and equine sectors, with a strong position in poultry and cattle.

Visit www.boehringer-ingelheim.ca for more information.

BOMImed

BOOTH: 212

A FAMILY-OWNED CANADIAN COMPANY BOMImed specializes in the manufacturing and distribution of airway management, anesthesia, critical care, infant care, patient monitoring and veterinary products. Since 1985 we have been dedicated to providing quality comprehensive solutions backed by trusted clinical expertise. Through our commitment to continued innovation, integrity and superior customer service we have firmly established ourselves as a leader in the health care industry. At BOMImed, we believe a winning company doesn't just show success on the balance sheet. A winning company benefits society and enhances the lives of those affected by its actions. Our ultimate goal is for the continuing recognition of innovation, integrity and caring. We provide more than just solutions, we provide Better Answers for Better Care.

Canadian Veterinary Medical Association

BOOTH: 308

Our Vision: The Canadian Veterinary Medical Association is the voice of the Canadian veterinary profession in promoting animal welfare and One Health, to ensure optimal care for animals, people and the environment.

Our Mission: The CVMA is the national and international voice for Canada’s veterinarians, providing leadership and advocacy for veterinary medicine.

Our Priorities: Leadership on national veterinary issues.
 Animal welfare advocacy
 A successful career, a balanced life.

Central Sales Ltd

BOOTH: 207

Central Sales Limited is one of the largest and long standing Veterinary Distributors in Canada, selling only to licensed veterinarians. Our mission is to provide the veterinary community with superior value, innovation and professional support and resources. Proudly serving Companion Animal Equine Veterinarians since 1953.

Champion Petfoods

LEVEL III SPONSOR

BOOTH: 512

Champion Petfoods, makers of ORIJEN® and ACANA® pet foods, have been crafting Biologically Appropriate diets for over 40 years. Our recipes are crafted with purpose and reflect our commitment to mirror the diet nature and evolution intended dogs and cats to eat. Fresh or raw meat, poultry or fish are always the lead ingredients in ORIJEN® and ACANA® recipes to provide pets with peak nutrition, optimal nourishment and ultimate flavor.

Our kitchens are some of the most advanced in the industry. They are purpose–built and custom–designed specifically for our unique recipes that take advantage of the inclusion of fresh and raw ingredients. Our new NorthStar Kitchen, widely recognized as the most advanced pet food facility in the world, helps us meet the global demand for ORIJEN® and ACANA® brands.

Our passion for the health and happiness of pets has always inspired us to make the best foods possible.

Christian Veterinary Mission Canada

BOOTH: 216

Christian Veterinary Mission Canada exists as an organization to walk alongside veterinary professionals (students, veterinary technicians, veterinarians) and encourage them to use their skills to serve God and others. We desire to encourage, equip, and empower men and women to serve in their schools, workplaces, and the world by providing opportunities and training resources. There are student groups, professional groups, and opportunities for short-term and long-term missions.

In the year pre-covid, CVM sent over 600 individuals on 106 trips to 31 countries. This year, short-term opportunities are once again opening up, with 43 trips planned to 15 countries through the remainder of the year. We also have 35 long-term field workers serving internationally in teaching, training, and community development programs.

Clover

BOOTH: 406

Clover, from Fiserv, simplifies the lives of small business merchants with an all-in-one, tailored Clover Merchant Platform that helps merchants; accept payments easily, run the business more efficiently, and identify opportunities to grow the business. The Clover Merchant Platform provides the software, hardware, and services that restaurant, retail, and service merchants need to run all aspects of their business more effectively.

Companion Animal Health

LEVEL III SPONSOR

BOOTH: 213

Companion Animal Health brings the most advanced technologies in pain management (including laser therapy), rehabilitation, diagnostics, and regenerative medicine. Whether your goals are to heal and reduce pain, regenerate and repair tissues, diagnose and record treatment success, or provide rehabilitative modalities, Companion has a solution that will benefit your patients and your practice.

Dechra Veterinary Products Inc

LEVEL II SPONSOR

BOOTH: 201

Dechra is committed to supporting the work of Veterinarians and Technicians by offering innovative and relevant products. We take pride not only in the high quality of our products, but also in the excellent support we offer.

DOGORA

BOOTH: 306

DOGORA wants your patients post-surgery to be a memorable one. Let DOGORA aid in post surgery mobility and discomfort while preventing any contact with surgical stitches after neuters, spays and obstruction surgeries.

Dragon Veterinary Canada Ltd.

BOOTH: 408

Dragon Veterinary is the leading voice-to-text software developed by veterinarians for veterinarians. It provides a fully integrated solution that helps veterinary professionals navigate medical decision-making and treatment plans entirely by voice and integrates seamlessly with your practice management software of choice, allowing you to complete more accurate and more detailed notes in less than half the time! Dragon Veterinary is more than just dictation, it is a way for veterinarians to get back to their roots and spend more time doing what they do best; caring for their very special patients.

Dyna Medical Corp

BOOTH: 100

Dyna Medical specializes in Regional Anesthesia as the Canadian distributor of Pajunk, Copenhagen Medlab and Safersonic devices.

Eickemeyer Veterinary Technology for Life

BOOTH: 211

Improving animal welfare is, and has always been, at the centre of EICKEMEYER®'s philosophy. Since our foundation in 1961, veterinarians have benefited from our vast experience in the field of veterinary science. By exchanging knowledge and expertise with veterinary professionals from all around the world, we constantly develop new products. These are tested in clinical practice to ensure that only the best remain in our portfolio. Therefore we can offer solutions that meet your individual demands and guarantee the highest quality at a reasonable cost.

ezyVet

BOOTH: 502

Empowering veterinary professionals to thrive with our industry leading cloud-based practice management software.

Felix and Fido at Home Nursing Care

BOOTH: 506

Felix & Fido is a services-based company. We are a platform for animal owners to find local registered veterinary technicians to assist their fur babies with at-home care, while at the same time providing career opportunities for RVTs. When a pet is discharged from the hospital, had an accident, or is simply aging, we are here to help care for them.

Georgian Anesthesia and Medical Corp

BOOTH: 413

Having a successful veterinary practice involves two things - great people and a reliable source for veterinary supplies and equipment. Here at Georgian Anesthesia and Medical Corp., we make one part of this equation easy for you. We are your support team when it comes to not only getting the products you need, but for keeping up with advancements made in the industry so you have a source for staying on top of your field.

Heska Canada

LEVEL II SPONSOR

BOOTH: 404

Heska Canada distributes leading diagnostic in-house Laboratory equipment such as Hematology and Chemistry analyzers, Ultrasound, DR and CR, Digital Dental, Therapeutic Laser as well as Orthopedic surgical tools and implants. We offer CE across Canada in Ultrasound, Dental Radiology and Orthopedic and Soft Tissue surgery.

Hill's Pet Nutrition Canada Inc.

LEVEL I SPONSOR

BOOTH: 307

Vision: To make nutrition a cornerstone of veterinary medicine.
Mission: To help enrich and lengthen the special relationships between people and their pets.
Philosophy: We believe all animals – from your pet to the companion animals we care for – should be loved and cared for during their lifetimes.

HK Medical Instruments

Nova Biomedical

BOOTH: 101

Nova Biomedical is a company dedicated to using advanced technology to develop better blood testing analyzers for medical use. These products are called in vitro diagnostic devices (IVD). We use some of the same advanced technology to provide the biotechnology industry with innovative instruments for cell culture monitoring. Nova is the largest privately owned IVD company in the U.S. and the third largest in the world, with over 1,200 employees globally. Our eight percent compounded annual growth over nearly a decade is more than double the IVD market growth, making Nova one of the fastest growing IVD companies in the world.

NVA Canada

LEVEL I SPONSOR

BOOTH: 700

NVA Canada is a rapidly growing community of Canadian veterinary hospitals and passionate professionals dedicated to serving the local needs of pets and their owners.

For the love of animals and the people who love them.

Globally, the NVA community tops 1300 veterinary hospitals and pet resorts in the United States, Canada, Australia, New Zealand and Singapore. Over 35,000 veterinary professionals work to improve the well-being of patients by providing progressive and compassionate veterinary care.

P3 Veterinary Partners, Inc.

LEVEL III SPONSOR

BOOTH: 508

P3 Veterinary Partners is a young, dynamic, and innovative Canadian veterinary practice group that empowers veterinary teams to live their passion and focus on unparalleled care for pets and the people who love them. Our vision is to be the best place to work in veterinary healthcare, and our mission is to provide the best possible medical, surgical, and preventative care. P3 was created as an alternative to the traditional corporate model. We do not impose policies that interfere with medical decisions. Our medically-trained team members are empowered to employ their clinical intuition and develop customized treatment plans, and simultaneously enjoy countless home-office supports. A medical advisory board to compliment P3's unparalleled commitment to CE, a comprehensive Total Compensation package that includes a 100% employer-paid health benefits package, a flexible approach to scheduling, and the opportunity to buy-in and partner with P3 are a few perks enjoyed by our veterinary team members. The best of both worlds. The best place to work in veterinary healthcare.

VCA Canada Animal Hospitals

LEVEL I SPONSOR

BOOTH: 409

Caring for life's greatest companions. It's what we do! From a small group of hospitals in Calgary, Alberta back in 1981, we have grown and developed into Canada's largest network of animal hospitals. We serve pet parents across BC, Alberta, Saskatchewan, Ontario and Quebec. Our hospitals are committed to caring for life's greatest companions.

Vet Alliance / Globalvet

BOOTH: 304

Exclusively for independent hospitals, Vet Alliance recognizes that Healthy Practice is about more than just the medicine. Access CE to elevate the skills of your entire team, expert support to empower leadership, and the strongest non-corporate rebate program in Canada.

VetCare Canada

BOOTH: 210

VetCare is a proudly Canadian-owned acquirer and operator of veterinary practices, based in Vancouver, and with passionate associates across Canada. Our commitment to care is at the heart of what we do, from guiding our talented medical and operations teams, supporting practice owners through seamless transitions, and providing the highest quality of care to patients through our community-focused practices.

Veterinarians without Borders

BOOTH: 504

VWB/VSF was founded in 2005 when a small group of passionate advocates of animal, human, and environmental health decided to change the world. From Canada's Northwest territories to sub-Saharan Africa and Southeast Asia, and, today, Ukraine – VWB/VSF has grown into a collective of passionate advocates, dedicated volunteers, and generous donors who work in collaboration with partners around the world to create healthy animals, healthy people, and a healthy planet. We believe in the One Health/EcoHealth approach, which recognises that humans and animals live in a shared environment – and there is added value to be gained by working together on health issues with a wide variety of local and global partners. With work in over a dozen countries around the world, our projects are supported by individual donors, foundations, government, and corporations across the globe.

Veterinary Management Group (VMG)

BOOTH: 218

Veterinary Management Groups (VMG) are made up of non-competing practices from geographically (or across Canada) diverse markets. These groups allow practice owners to openly discuss challenges, identify goals, share success stories, and benefit from an environment of mutual support and motivation. Each group meets semi-annually to share information, benchmarking data, management experiences, ideas, resources, problems, solutions, successes, and failures, with continued communications between meetings. Great practices never stop improving! Joining VMG Canada will help you establish a foundation for success.

Veterinov

BOOTH: 208

Manufacturer specialized in veterinary equipment designed in Quebec, Veterinov is a new way of approaching animal wellness. Our equipments are designed to offer maximum comfort and safety to the animals. In addition, our designs are made to facilitate the work of veterinary professionals.
