Your Clients

Information on the number of clients in your practice can provide valuable information on how much each client is spending at your practice over the course of a year and how often they are visiting your practice.

Active Clients: This information can come from your Year End Day Sheet or the Number of Active Clients in your computer. Be sure not to confuse the number of clients with the number of invoices. The number of clients will be different than the number of invoices. For example, Mrs. Smith visited the veterinarian 15 times last year - three times for medical care and treatment and 12 times to purchase food. Mrs. Smith should be counted as one active client and she was responsible for 15 invoices.

Active Client Period: Please count clients who have been to your clinic in the last 12 months as Active Clients. Some systems consider any client who has had a transaction in the last 12 months to be an active client, while other systems count all clients who have a transaction in the last 18 or 24 months as active. To accurately provide you with revenue per client and client visits per year, provide information for active clients for the last 12 months. If you have any questions about your active clients, please contact your software representative or call Chris Doherty at the OVMA office for instructions. Phone: 800.670.1702 or email: cdoherty@ovma.org.

4. What practice management software do you use? ________________________________

5. Active Clients in last 12 months

6. New Clients in last 12 months

7. Invoices (medical & non-medical) in last 12 months

Financial Statement Information

Please submit a copy of your most recent 12-month financial statement (either the statement from your accountant or an internal statement showing a breakdown of your expenses) as this is required in order for you to receive a full report on your practice. To accurately compare all practitioners, information about your practice is needed to supplement your financial statements. Since some practitioners own and some rent their facilities, owners need to be converted to renters. Additionally, adjustments for income splitting need to be made so the net income for the practice is accurate. If necessary, a researcher will contact you by telephone to confidentially discuss any adjustments to your financial statement.
