THE UNIQUE CHALLENGES OF DENTAL CARE FOR SMALL-BREED DOGS

ARE SMALL AND TOY BREEDS MORE SUSCEPTIBLE TO PERIODONTAL DISEASE AND ITS CONSEQUENCES?

Guest speaker: Brook Niemiec, DVM, Dipl. AVDC, Dipl. EVDC, FAVD

Dr. Brook Niemiec is a board-certified specialist in veterinary dentistry (American Veterinary Dental College and European Veterinary Dental College), as well as a Fellow of the Academy of Veterinary Dentistry, of which he is the immediate past president and representative to the World Small Animal Veterinary Association (WSAVA). In addition to being Chief of Staff of Southern California Veterinary Dental Specialists, Dr. Niemiec coordinates the San Diego Vet Dental Training Center. As an advocate for oral health, Dr. Niemiec is a regular speaker at the local, national and international levels. He has also authored many articles, chapters and books, and is the founder of the premier veterinary dental telemedicine website vetdentalrad.com.

Find out why small and toy breeds often need advanced periodontal therapy (including tooth extraction) much earlier in life than larger dogs do, and get tips on when and how to initiate periodontal care in at-risk patients... all from the comfort of your home or office!
