March is NATIONAL TICK AWARENESS MONTH

What you need to know about ticks: Regional risks and surveillance updates

Join veterinarians and animal health technicians from across Canada for this exclusive one-hour NATIONAL TICK AWARENESS MONTH launch webinar

Don’t miss this unique opportunity to get the most recent information available regarding the rapidly-changing tick “landscape” in Canada – just in time for the start of tick season!

NOTE: Because tick prevalence and risks are not the same from coast to coast to coast, this webinar is being offered in two region-specific sessions, on two consecutive days.

MARCH 1, 2016 (WESTERN CANADA)

12:00 p.m. • 1:00 p.m. • 2:00 p.m. • 3:00 p.m. • 4:00 p.m.

MARCH 2, 2016 (EASTERN CANADA)

9:00 a.m. • 10:00 a.m. • 11:00 a.m. • 12:00 p.m. • 1:00 p.m.

What you need to know about ticks

- Tick biology, ecology and control
- The role of temperature and the seasonality of these parasites
- The importance of early prevention and compliance throughout the entire risk period

Featured speaker for both western and eastern Canada sessions

Dr. Michael W. Dryden, DVM, MS, PhD
Professor of Veterinary Parasitology, Kansas State University

Regional risks and surveillance updates

WESTERN CANADA EXPERT
Dr. Robbin Lindsay, PhD
Research Scientist
Zoonotic Diseases and Special Pathogens
Public Health Agency of Canada

EASTERN CANADA EXPERT
Dr. Scott Stevenson, BMSc, MSc, DVM
Locum, Thousand Islands Veterinary Services
