

PACKAGING MATERIAL VENDORS

This list contains examples of companies that carry packaging materials that may comply with the TDG regulations for shipment of infectious substances 6.2. The list is not comprehensive as other companies may also carry suitable supplies. **It is provided for information only and appearance in the list does not constitute endorsement by the Canadian Food Inspection Agency or by the Government of Canada.**

FUTURE

CFIA Corporate Occupational Health and Safety is currently having another system (10"x10"x10") tested to see if it will meet the PI650 requirements.
