

Recuperation Needs From Catabolic to Anabolic: A technical update

Speaker:

Dr. Wim Van Kerkhoven
DVM, Technical Director and Managing Partner,
Viyo International

WHEN:

WEDNESDAY
August 18 @7pm - 8:30pm[EDT]

Program Agenda:

- Why is "recuperation" different than "recovery"?
- What is involved in optimal recovery?
- What are "recuperation nutrients"?
- Selecting an "oral recuperation fluid" or ORF
- Review existing product

Dr. Wim Van Kerkhoven started his professional career working in a small animal clinic. In 2001, he joined P&G to be responsible for lams - Eukanuba in the influencer channel (DVMs and breeders) for Benelux. At the end of his career at P&G, he was responsible for the breeder channel in Europe. Dr. Wim has always showed a passion for nutrition and the problems in cats and dogs, where nutritional management is of great importance. Since joining Viyo International, a worldwide leader in liquid animal health products, he has become the Technical Director and Managing Partner.
